Footbridge opened

THE South Street footbridge has been opened.

The footbridge crosses over South Street between Pine Tree Gully Road and Jasmine Loop. Riverton MLA Tony McRae said the \$3.1 million dual-use pathway was a valuable link between the residential areas around South Street and shopping precincts, schools, sporting fields and churches.

"This overpass is also a very important link for commuters using buses and connecting to Murdoch station on the MetroRail southern rail line," he said.

"The dual-use bridge meets the Australian Standard for access so that ramp gradients, landings and handrails make it accessible for pedestrians and cyclists and people in wheelchairs."
